Application Number: F/2000/1865

Appraisal :

Planning permission is sought for the erection of a single storey extension at the property to provide an indoor swimming pool.

The application site lies in the identified settlement of Hurst. The owners of the property wrote to the Planning Department earlier this year with a permitted development enquiry for ancillary building within the residential curtilage to be used as an indoor swimming pool. The building was considered to be permitted development under Class E, Part1, Schedule 2 of the Town and Country Planning (General Permitted Development) Order 1995. This latest application is for the same sized building, however it would be integrated with the existing dwelling and as such requires planning permission.

The building would be sited to the front of the dwelling but would only be partially visible from Tape Lane due to the setting of the two neighbouring properties and the gates/enclosure on the west boundary of the site. In addition the single storey nature of the building to a height of 4.4metres does mean that the building would not be a prominent feature on the site. As such it is not considered to be harmful to the character and appearance of the surrounding area. Also the building would not have any impact upon the amenities of the neighbouring properties due to its siting and low height.
