Appraisal: The proposal is for a detached garage and store. The planning history indicates that a first-floor bathroom extension was constructed under permitted development rights in 1969 (PD/39/69) and in 1994/95 (43331 and 44342) planning permission was granted for a barn on the site to be converted to a separate dwelling and a new access. Planning permission for a garage was permitted in 1997 (97/65712/F) but this was a much smaller structure (6 x 4 metres with a 4.2 metre ridge height).

The proposed garage/store would be 13 metres wide and 7 metres deep, giving a footprint of $91m^2$, and it would have a pitched roof with a 6.2 metre ridge height. The dwelling, including the bathroom extension has a footprint of abut $128m^2$ and a total floor space of about $256m^2$. Thus, the proposal would represent an increase of about 70% in the footprint of development on the site and 35% in floor space. The area of the proposal combined with its height would result in a considerable increase in the scale of development on the site and, although the site is well screened a separate structure of this scale would be harmful to the countryside character of the area and hence contrary to policy.

Recommendation: refusal
