

PLANNING REF : 243126
PROPERTY ADDRESS : Yew Tree Farm
: Reading
: RG7 1HR
SUBMITTED BY : Mr Stephen Parsons
DATE SUBMITTED : 07/01/2025

COMMENTS:

- There is urgent need for new facility. The current building is significantly overstretched and needs replacing urgently.
- The new site will reduce our journey length and resulting pollution from existing site which is much further away towards the town centre. My wife and I volunteer there on a daily/weekly basis and do many journeys a week to the current premises so would be a substantial nett reduction in CO2 emissions from our car.
- Given the location is adjacent to the local church that we visit regularly this creates opportunities for linked trips with going to existing church building.
- Having reviewed the design the building is very unobtrusive and will barely be visible to the road which is a good thing.
