- ☐ No comment
- ☒ No objection
- ☐ No objection subject to conditions (and reasons) **stated below**
- ☐ Request further information before determination as **stated below**
- ☐ Objection due to the reason(s) **stated below**

Comments On Proposal

All species of British bat are protected under the Conservation of Habitats and Species Regulations 2017 and the Wildlife and Countryside Act 1981, as amended. Under this legislation it is an offence to deliberately or recklessly to destroy or damage their roosts, or to disturb, kill or injure them without first having obtained the relevant licence for derogation from the regulations from Natural England in England.

A bat roost is interpreted as "any structure or place used for shelter or protection" whether or not bats are present at the time.

I request that WBC Informative I19 is included in the decision notice.

Conditions & Reasons (if required)

Bbats are mobile creatures, and it is possible that protected species may be encountered once works commence. I recommend the following informative should be appended to any such consent:

Informative: Bats are a protected species under the Conservation of Habitats and Species Regulations 2017 (as amended). Should any bats or evidence of bats be found prior to or during the development, all works must stop immediately and an ecological consultant contacted for further advice before works can proceed. All contractors working on site should be made aware of

the advice and provided with the contact details of a relevant ecological consultant.

Date:	10/07/25	Signed:	T Cuss
