COMMENTS:

I am only objecting based on the fact that I currently work in one of the existing business units at Winnersh Fields business park and I am extremely concerned about how this will affect traffic and parking. Parking is already busy in the designated car park, with some businesses double parking cars due to lack of designated spaces. This would impact the local businesses located at the business park enormously, and cause stress and upset if parking rules were not observed. It would also have an affect on local traffic.
