COMMENTS:

I strongly oppose the planned construction of a mosque here. There are currently five mosques in Reading, which serves the local Muslim population well. Adding another will just make the road congestion that already exists worse, especially at the busiest times for school pickup and prayer. Because our residential streets are not built to accommodate the extra number of cars that this development would produce, there will be safety risks and a reduction in our standard of living. I urge the council to turn down this proposal.
