Description of Proposed Works

Please describe the proposed works

With respect to planning permission to raise the existing brick side boundary fence with a timber fence (above) to an average of 1800 mm from curb height with 2 access gates (one to the front garden and one to the driveway and garage)

A small portion of the existing boundary brick wall will be demolished to allow for better view from the driveway as per plans

- Installation of a close-boarded timber fence (1.5m height) on top of existing brick boundary wall of 0.3m height, and continuing the fence at 1.8m down my drive (widened by 0.5m) including 2no. pedestrian gates.

☒ Yes

☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Boundary treatments (e.g. fences, walls)

Existing materials and finishes:

existing is brick, I plan on adding timber fencing on top of the existing (currently about 300mm high) raising it by 1500mm to 1800mm high. We prefer the look and softer feel of the timber board over raising it just with brickwork. The gates will be timber and the fence down the drive will be timber to allow a softer feel.

Proposed materials and finishes:

Timber posts, timber gates x 2 and timber fence panels.
