COMMENTS:

I wish to object to the proposed development for the following reasons:

Increase in traffic along an already dangerous and unsuitable road, especially at peak times, while children are making their way to and from school. There have been multiple serious accidents around and along from the Basingstoke Road/Beech Hill Road junction in the few years that we have lived in the area.

Lack of facilities such as dentists (already impossible to access for new residents to the area), schools (Oakbank being a small secondary, barely able to cater for the current local demand), and doctors (the Swallowfield practice is constantly extremely busy).
