COMMENTS:

The design in the application is completely unacceptable as it would remove ALL of my privacy in my rear Garden. The proposed double door, and roof terrace would directly overlook 100% of my rear garden, and on these grounds i strongly object to the design in the planning application as submitted. Not only would i loose privacy, but it would negatively impact the value of my property. the structure, is far too large and not in keeping with the property as it would dominate the skyline.
