COMMENTS:

I object to this planning application due to the substandard infrastructure in Hurst. The application would undoubtedly add traffic to the village. I have a huge concern already about the safety of my children on the narrow, uneven and poorly maintained pavements and adding more cars through the village which already has a big speeding problem is a massive concern. I walk my children to school and use Tape Lane for safety as it is quieter being access only. The main road is not safe.

Some of the "plans" are also ridiculous that have been requested - a mini bus is not viable - no one will use it and everyone will have a car. If you can afford a house in Hurst it is fairly likely that you will be able to afford a car or 2. Practically people will not use a minibus.

Please do not approve this application for the safety of children.
