COMMENTS:

As a resident of Winnersh I strongly object to this application .There is nothing against having a religious/ cultural space but the location is just not apt. I am particularly worried about the potential for increased traffic congestion and parking difficulties which could disrupt the already stressed area. The location is experiencing traffic issues, and adding a center that could attract a significant number of visitors will likely exacerbate this problem.

Additionally, I have concerns about noise levels during prayer times and other events, which may disturb the quiet environment . There is also the question of whether the local infrastructure, such as public transportation and healthcare services, can accommodate the additional demands .Additional vehicle movement will worsen the situation. Nearby towns such as Maidenhead, Reading, Windsor, and Bracknell already have similar centres that can serve the community very well .This site is not suitable since it cannot accomodate additional traffic,noise and parking .
