COMMENTS:

As the Director of local business owner, I fully support the new project for an Islamic Center in the Wokingham area. I work extensively across the local area, and unfortunately, there is currently no place of worship for the Muslim community in this on.

While working around A1 Scrapyard and other areas, I often find it challenging to find a nearby mosque for prayers, which requires me to travel to either Bracknell or Reading. Having a dedicated place of worship in this area would be a great step forward for the whole community, providing a much-needed space for Muslims from diverse backgrounds and cultures to come together.

As a local business owner and member of the public, I wholeheartedly support this project and believe it will have a positive impact on the community.
