COMMENTS:

The nearest Mosque is on London road and another 10 in Reading and bracknell area.

We have seen the London road Mosque causing significant amount of traffic issues to local community and on a busy junction.

The showcase roundabout is already busy at peak times and Friday prayers will pour more people and cars on the road. This will cause more traffic and when it rains that round about gets flooded and Queues go all the way affecting lower Earley way, Winnersh, Wokingham road.

If a 11th Mosque is required then please plan it away from major traffic junctions and open lands away from Residential and commercial areas.

Thank you for consideration for local community.
