COMMENTS:

'd like to express my concern regarding the over-development of the WBC area and its impact on life in Finchampstead. Insufficient regard has been given to the amenities, landscape and development guidelines. This renders each incremental development less sustainable than the previous one. Specifically the Hall Farm development must not be allowed to proceed.

I understand the government are pushing for more houses to be built but already over 3,000 dwellings have been built in Arborfield. The Hall Farm development would add another 3,000 homes which would be unsustainable and have a detrimental impact on the quality of life for existing residents in the area. I would like to know what Wokingham Borough Council is doing to protect our local countryside both now and into the future.
