COMMENTS:

Utter madness.

You only need to drive anywhere in the local area; Arborfield, Shinfield, Spencers Wood or Three Mile Cross to know the area CANNOT cope with more people or cars. The traffic is awful most days.

Doctors have no spaces, Dentists have no spaces, Primary Schools have no spaces.

This is no nimbyism, this is just common sense. I live in a 10 year old house in Three Mile Cross and lived in a new build in Spencers Wood before that, I have no issue with new housing, if done correctly. BUT the housing that has gone up all over the area the last 10-15

years has had little to no extra infrastructure added to cope. We are already lagging behind what we need, let alone another 3000 odd houses being built with 6000 or so extra cars!

Where on earth is the wildlife meant to go though too? We're in a climate emergency and you're building all over green spaces when there are far more suitable places to be building.

I know houses need building but we've had more than our fair share built here. Have some common sense and reject this proposal

.
