COMMENTS:

My name is Lenka Hlavacova, I am the person who originally raised complaint about breach of planning permission as our neighbor no 14 didnt do application in regards to his raised decking, the decking seems too high and any member of the family or visitors can and have overseen to our garden, when close to the fence we can see half of their body which isnt right, we have two small children who would like to play in privacy of our garden and we all feel that our privacy has been compromised, I have commented to on this application on the 12th May originally but for some reason it went against another application

I do hope that this is resolve as we don't feel it it right and it effects our use of our own garden, we would like the decking to be adjusted to lower level and fence to be higher but not more than the one which has been put alongside site of the house

Thank you Lenka Hlavacova
