COMMENTS:

I live close to the entrance from Messenger Road onto Viscount Way. The articulated lorries that already use this road already can be heard during the day. With extra articulated lorries during the day is certainly going to be a "nightmare", but it is to be somewhat expected with the new development. BUT to remove this restricted delivery time, to during the night also is so unfair to all who live on this estate. It will also impact on the wear and tear of the road, which is not in great condition as it is.
