COMMENTS:

First of all I've spoken to local residents and none have received an official Notification via letter to all residents in London road area and this needs to be addressed even the local school Polehampton were completely unaware . There are many concerns which needs to be addressed and answered, as it's stated that it's a bed and breakfast to which there was no signage showing this was a B&B. Also if you are saying there will be 11 staff where are they going to park as it's a drive which fits 2 cars comfortably so that will impact on street parking because they will park in permit bays and unfortunately there's not enough parking wardens to monitor this plus families and emergency services will want access. I'm afraid this all needs to be looked at more seriously. Hence I'm objecting.
