COMMENTS:

Nothing has changed from the 1st application slight reduction in numbers of houses, but main issues still remain.
Traffic impact in already congested area, completely defeats the objective of closing school rd to traffic, right next to the school so high risk of accidents and taking away more green belt. Given the amount of housing already and future planned (although hopefully rejected) this development is not needed or welcome. Please think of the current residents who are feeling under attack. Reject this application and move to never let it happen.
