COMMENTS:

Dear Sir/Madam

We are surprised at the minimal changes that have been made and remain in objection to this development for the same reasons as previously stated. My parents bought this house when it was under development and for the reasons that it was private, secluded and not overlooked. As executor for my late fathers estate, I am sure he would have been extremely disappointed and sad in the proposed development and I would like to state that it does not meet or match any of the architectural styles in the area for miles around, it will deplete the value of our property and those who we share the development with, and it is not in keeping with the spirit of considerate development and sustainability. We would urge the Council to carefully consider our objections and urge the developer to make considerable and further changes to the design. Yours sincerely Ralph Justin Dixon
