

Wokingham SEND Resource Provision

Keep Hatch Primary School – SEMH Resource Unit

Date: 12.02.2026

Statement of Community Involvement

This Statement of Community Involvement accompanies the planning application for the proposed SEMH Resource Unit at Keep Hatch Primary School, Wokingham.

The proposal has been developed through ongoing collaboration between Wokingham Borough Council (as Local Authority and education provider), the school's senior leadership team and the appointed design consultants. The scheme forms part of the Council's wider programme to expand specialist SEND provision within mainstream school settings in response to identified local need.

Engagement has included:

- Regular design development meetings with Wokingham Borough Council officers
- Consultation with the Headteacher and senior leadership team
- Input from SEND and safeguarding specialists to inform spatial planning, security and operational requirements
- Iterative review of siting, access arrangements and boundary treatments to ensure appropriate integration within the existing school campus

Given the modest scale of the development and its location wholly within the established school boundary, wider public consultation has not been undertaken. The proposal does not alter the established educational use of the site and is not expected to give rise to significant off-site impacts.

Further detail regarding stakeholder engagement and the evolution of the design is provided within the accompanying Design & Access Statement.
