Dear Mr Cantell

TREE PRESERVATION ORDER NUMBER: 932/1998
APPLICATION NUMBER: 250854
LOCATION: BEDROCK TALISMAN CLOSE, CROWTHORNE, WOKINGHAM, RG45 6JE

I am writing to you regarding your application to carry out works to protected tree(s), which was received and validated on the 03 April 2025.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to G1 and G3 of TPO 932/1998:

T5, Beech (part of G1):

- Crown lift to approx. 4m by removing secondary growth only where possible.

T7, Beech (part of G3):

- Section fell to just above ground level.

T9, Beech (part of G3):

- Crown lift to approx. 5m by removing secondary growth only where possible.

Reasons stated for works:

1. *The proposed works will help to prevent future conflict with the building and driveway.*
2. *The tree is beginning to dominate and whilst the residents like and enjoy the positive aspects of the tree, they do not want it to become any larger and therefore want to manage it to contain the size and spread of the tree, to prevent future problems.*
3. *The pruning will be carried out in accordance with the guidelines in BS3998, is therefore an appropriate recognised pruning technique and should be allowed to be carried on to all trees to alleviate problems and conflicts.*
4. *The pruning on T5 and T9 will only remove an estimated <5% of the total leaf area of the tree and therefore the overall effect on the tree will be minimal.*
5. *The pruning will allow more light into the garden and property, allow lower species to develop.*

6. *The area has plenty of tree cover and therefore any loss of visual amenity will be minimal.*
7. *T5 + T9 vitally is good and therefore the pruning will not have a significant detrimental effect to overall condition of the trees.*
8. *Because the house screens the tree the branches removed will only be noticeable from one or two public places and you will have to look hard to see they are missing, therefore the loss of visual amenity for the local landscape will be minimal.*
9. *T7 has an area of delaminating bark, which dips into the stem, likely caused by an underlying split. The ridge runs from the floor up to crown break and there is a clear change in sound when testing with a sounding mallet. Black staining commonly associated with Bleeding canker is present, and the root appears to have died on this side and due to the position of the tree and the target area being the property I would advise that it is removed, and a new tree is planted.*

The consent is granted subject to the following conditions:

1. The above works must be completed before **03 June 2027** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 ‘Tree work - Recommendations’.
3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reasons for conditions 1-3.....

1. To ensure that our records remain accurate.
2. To ensure the health, safety and visual amenity of the tree(s) and ensure works are undertaken in accordance with recognised arboricultural good practice
3. Spikes can cause extensive long-term damage to trees.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk
Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

A handwritten signature in black ink that reads "Chris Hannington". The signature is written in a cursive style with a large 'C' and a long, sweeping underline.

Chris Hannington
Trees and Landscape Team Manager

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
