COMMENTS:

Good Morning to one and all, im very delighted to support islamic Centre in winnersh, this would greatly support local muslims to have a place of worship and would benefit the entire community. Firstly, local mosque would ease the transport costs and reduce time to travel and decrease pollution. Secondly, it would guide the muslim youths

and individuals to stay connected to religious teachings and be a respectful and caring citizen,overall reflecting the winnersh wellbeing.

Thirdly, islamic institutions make an amazing environment for learning and respecting other cultures, young muslim children who learn islam are deciplined and law abiding.

There are numerous benefits of having a Mosque in winnersh, this would also lead to less traffic congestion as the local mosque would attract car share and many would prefer walking locally to the mosque. In the future, it would also increase th business and profits locally.

Overall, i strongly support the cause as it would not only be beneficial to Muslims but also to people of other faith.

Thank you for considering.
