COMMENTS:

I wish to object to this proposed change of use.

14 allocated parking spaces is woefully inadequate to serve its intended new use.

The surrounding existing businesses would suffer from an influx of vehicles during prayer time.

The Transport Scoping report paragraph 3.2.3 states the Friday will be the busiest time with 50-70 attending including children which according to the report: "It's worth noting that parents usually drop off their children at the centre, before coming back to pick them up".

The entrance & site area is totally inappropriate for this sort of activity.
