COMMENTS:

I moved from Isleworth in London to have a quiet, peaceful life in a beautiful village which is now being literally ruined by this proposal!!

It will have so many negative impacts such as significantly adding to the population of our area (possibly unwanted antisocial behaviour which I've been a victim of where nothing was done about the incident)!

It will of course adversely add to traffic congestion, noise and pollution in Spencers Wood which we are already struggling with. Furthermore, there will be an obvious increase of litter which I am constantly picking up because people can't be bothered to throw their rubbish in bins which we have less of!

And lastly, it will destroy our precious countryside, and wildlife habitats of which sadly I've already seen deteriorating.
