COMMENTS:

It's amazing that the Muslims of Wokingham and surround can have a dedicated place of worship and congregation. It's been years that we have been running to neighbouring towns like Reading and Bracknell to attend and participate in their worship always having to leave much earlier to get a place to park and a spot to pray as they are over full and parking is limited. The community here is growing and it is beneficial our children do not lose their identities as we continue to assimilate into our Wokingham community. It is essential that we are able to congregate to study, meet, discuss local affairs and have planned activities for young and old to keep the community active and engaged. A dedicated building will encourage us to be involved in the General upkeep and running of a dedicated cultural community building to allow other faiths to join in to understand the need to help our future youths in being proud Muslim residents with a voice and a hub. Let's continue to make Wokingham our amazing home.
