COMMENTS:

There is already an application in progress for a Sikh Community Centre which could cause parking problems in the nearby streets, by adding the proposed Islamic Centre this will cause even more problem parking. We already have stupid parking in Cavendish Gardens because of the railway station where there are plenty of empty spaces available for commuters to use

There is also the traffic congestion where traffic turns right into Gazelle Close when coming up from the Roundabout. A lot of the problems are caused by impatient people driving up onto the pavement to get past the traffic turning right. This junction also will need to be upgraded..
