COMMENTS:

The existing plans dated 29.7.2025 showing 4 flats in the house is superseded on 12.8.2025.

Perhaps the owners do not know what exactly is going in with their property or does this new existing plan fit better for them in their submission.

The proposed 9 flats in this property would be more than double as stated on 29th July. The intensification of flats in this dormer property with all the paraphernalia will change the character of this area.
