Dear Mr. Mitchell,

Application No:	***TL/2000/2831***
Site Address:	***Hatch Farm, Mill Lane, Sindlesham, Wokingham***
Proposal:	***Proposed installation of 3 x 3G dual polar dishes on Existing mast***

Our previous correspondence should be on your files regarding this radio mast.

We wish to further record our dissatisfaction with the location of this mast. Whilst we make every effort to improve the appearance of our site for the benefit of our customers and the local community, it seems we have to live with this blot on our landscape which, if this development is allowed, will have an even bigger impact.

We would also like you to be aware of our concerns from a health point of view in that there appears to be evidence that being in close proximity of these masts is a potential health risk.

As the closest neighbours to this mast site we strongly object to the further development of it and ask that the council refuse this application.

Yours sincerely,

Tim Harding
Managing Director

This application <u>will have expired on</u>: <u>19/12/2000.</u> You need to make a decision 1 day prior to this date for this application to count as determined in less than 8 weeks.

Consultation Responses :

Winnersh PC " no comments"
Environmental H no objections - comment
Property - no objections
Highways - no objections

Planning Issues :

amenity of surrounding area.

Application Number: TL/2000/2831

Appraisal :

History

TL 025 10/5/95 additional antennae on existing mast approved

TL 043 - 15m temporary mast } compound adjacent to } ? approved
TL 044 - tempory aparatus } existing } 12/9/96
TL 045 - replacement 22.5m mast + equipment cabin
TL 065 - would result in inc in height + requires full consent.
TL/2000/1977 - additional equipment (+ cabin) on existing mast approved 10/8/2000
NB site appears to be shared by Cellnet + One 2One.

The proposal is for additional dishes on an existing site, for use by BT Cellnet.

The site is adjacent to an area of woodland and, therefore, the mast is not as prominent in the landscape as it would be on an open site. The visual and amenity impact of installing additional dishes would not be significant.

Dear Mr Woodhouse

PROPOSED INSTALLATION OF 3X 3G DUAL POLAR DISHES ON EXISTING MAST ON LAND A HATCH FARM, MILL LANE, SINDLESHAM – TL/2000/2831

With regard to the above application, I write to inform you that the Council requires prior approval of the proposal. This is in accordance with policy WIC14 of the Wokingham District Local Plan Deposit Draft, which states that the Council will exercise its option to require prior approval on sites within 200 metres if any building regularly used by people.

Yours sincerely

WOKINGHAM DISTRICT COUNCIL

MEMORANDUM

From: Joanne Ellis
Environmental Health

My Ref: JPE/hatch

To: Emy Circuit
Planning

Your Ref: TL/2000/2831

Date. 08 December 2000

PROPOSED: INSTALLATION OF 3 X 3G DUAL POLAR DISHES ON EXISTING MAST

LOCATION: HATCH FARM, MILL LANE, WINNERSH

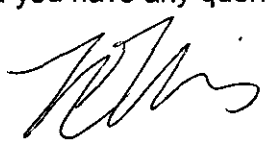

These proposals have been evaluated and I have no environmental health objections to planning consent but have the following comments to make in relation to this proposal:

There have been questions raised as to the possibility of adverse health effects from electromagnetic radiation from telecommunication base stations and their positioning in relation to residential development and, in particular schools.

The Chartered Institute of Environmental Healths current policy states that;

(a) despite a growing body of research, there is currently no convincing evidence that environmental exposure to electromagnetic fields (emf) generated by the transmission of electricity or mobile telephony is harmful to human health, including that of children;
(b) that there is no justification on health grounds for restricting the public use of land other than immediately around power and mobile telecommunications installations. Conversely, there is no justification for restricting the siting of such installations in proximity to other land uses:
(c) that public concerns about the effects of electromagnetic fields while in our current state of knowledge apparently without foundation, should nonetheless be recognised as genuine.
(d) The full effects of emfs on humans may not yet be realised and though it can never be conclusive, there remains a need for continuing, properly funded, independent research into the nature, extent and relevance of those effects and the consequent adequacy of prevailing exposure guidelines.

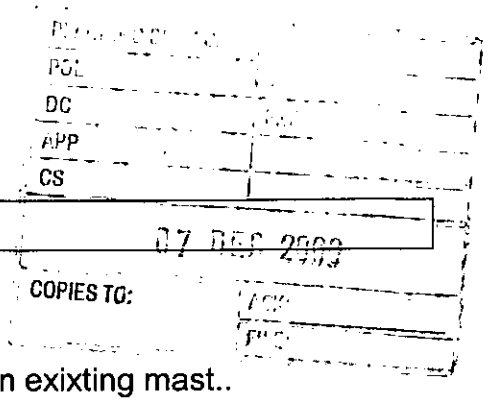

Should you have any queries please do not hesitate to contact me.

Joanne Ellis
