COMMENTS:

I wish to object to this planning application for a mixed-use development of up to 850 dwellings and associated infrastructure.

While I recognise the need for new housing, I do not believe this application adequately addresses the significant impacts that a development of this scale would have on the local area.

Secondly, I am concerned about the impact on local traffic and highway safety. A development of this size is likely to generate a significant increase in vehicle movements, leading to congestion on surrounding roads, increased journey times, and potential safety concerns for pedestrians and cyclists. The proposed access arrangements do not appear to fully mitigate these impacts.

the loss of even more forestry would be even more devastating.
