COMMENTS:

The roads will not cope with any more development. At some point it has to stop unless the correct infrastructure is put in place. The roads are already gridlocked. This will create more congestion. How will the area manage this additional number of houses without focus on equally increasing social services - perhaps a focus of new schools, doctor surgery's, hospitals etc would be more appropriate then more houses.

A collapsing infrastructure will be the net result of adding more houses so unless there is a plan to deal with this - it is hard to understand why this would be approved
