COMMENTS:

What has happened to Wokingham, it is virtually unrecognisable. They just keep building the same houses which currently surround this once great little market town. There is no infrastructure, no additional GPs, schools & local hospitals are being put under more & more

strain. Unfortunately there is also an ever dwindling town centre with increasing empty shops. Are the council completely oblivious to how an increasing amount of residents feel about this incessant building.

What is the plan for traffic relief on the Old Wokingham Road & Easthampstead Road which is already extremely dangerous.
