COMMENTS:

I object to the building any new housing developments in Wokingham.
I have lived in Wokingham for almost 40 years, and the best thing about it is the green spaces and small community. It's a market town and I feel the council building houses in every green spot without thinking about the residents, the town is too busy, dentist, surgeries, schools are so stretched not to mention the traffic on reading road and around town. Please put more efforts into saving local businesses than making more houses on every piece of wildlife land. (It takes 30 mins to drive from Woosehill to Sainsburys in the morning and this is usually a 2 min drive)
