COMMENTS:

No more houses!! We have had to put up with the excessive building noise for the last 2 years and more. Especially with developments working out of hours starting earlier as early as 6:30am and working later than permitted in the evenings too. Also working longer on a Saturday. We can't have a lying on a Saturday after a busy week at work, without being woken up by the noise. Nor can we enjoy our garden in the summer and forcing us to go out!! i. e with Taylor Wimpy on the Rowcroft development as an example. When challenged the

contractors on numerous occasions and also notified to the Council nothing is about it!!! I work from home a few days a week in an high powered job and have to listen constant beeping and building noise from the machinery on a daily basis, which is extremely annoying and very hard to concentrate with this noise. I completely object to this plans Enough is enough!
