COMMENTS:

Dear Planning Team,

I am writing to support the proposed planning application for Hall Farm in Arborfield (Application Number 252498).

I believe this development will bring real benefits to the local area. It provides much needed housing, including opportunities for families and self-builders, and creates a well-balanced community with schools, shops, green spaces and local facilities all planned together.

The proposals show real attention to sustainability. I am pleased to see the inclusion of green infrastructure, flood prevention measures and the creation of large natural open spaces for people and wildlife. The improvements to roads, public transport, and walking and cycling routes will also make it easier for residents to get around in a safe and sustainable way.

I think this development has been carefully thought through and will support both new and existing residents. It will bring investment, jobs and facilities that will make Arborfield and the wider area an even better place to live.

For these reasons I would like to give my full support to this application and hope the council approves it.

Kind regards.
