Dear WBC Drainage,

Householder Consultation

Application Number: 242978

Applicant: Mr Andrew McQuade

Site Address: 2 Grove Cottages, Sandford Lane, Hurst, Reading, RG10 0SX

Parish:

Grid Reference: Easting - 478731, Northing - 172600

Type of Development: Other Householder

Proposal: Householder application for the erection of ground and first floor side extension and a new porch with associated internal and external alteration including changes to fenestration and addition of roof lights.

Case Officer: Claire Moore

Development Management has received the above application and we require your comments on the proposal using the recommended memorandum below. The documents associated with this are available to view in NEC DM using the application number 242978. Alternatively, public documents are available to view on the Council's planning application search page: [Wokingham Borough Council Online Planning](#).

Please index your response into NEC DM against the application. If you are recommending conditions, you should give a reason with reference to relevant policies. A list of standard conditions can be found on the Z Drive at: [Z:\Standard Planning Conditions](#).

Your observations are required in respect of this application within **10 working days** of the above date or **15 working days** if the development type is classed as a major development.

Yours sincerely,
Development Management & Compliance

☐ Objection due to the reason(s) **stated below**

Comments On Proposal

LLFA received Housholder application for the erection of ground and first floor side extension and a new porch with associated internal and external alteration including changes to fenestration and addition of roof lights on 16th december 2024 . Site location is in flood zone 1 .

The applicant is advised to submit a surface water drainage strategy to support the proposal. This should include:

- Calculations demonstrating runoff rates pre- and post-development.
- Proposed SuDS measures and justification for their selection.
- Confirmation of infiltration potential or the capacity of existing drainage infrastructure.

By incorporating SuDS measures, the development can effectively manage surface water, enhance sustainability, and align with national and local drainage policies.

Conditions & Reasons (if required)
