COMMENTS:

As we know, there is already a large developement underway in Towes Lane, Swallowfield. Recently, The Pippins was built and there has been no infrastructure changes. It is already extremely difficult to book a GP appointment and the small village lanes and road are totally overused, with pot holes everywhere. There are too many people already, for such a small area. I also ask if the objective is to completely destroy all villages and rural life? Villagers views have to be taken seriously and we do not want any further developments in the Riseley and Swallowfield area which impacts our communities.
