COMMENTS:

Dear Planning committee, Comprehensive Objection to Planning Application for a Muslim Worship Centre Near Showcase Roundabout. The site is situated near a busy commercial and retail area, which already experiences considerable traffic congestion. Introducing a worship centre, which is likely to attract large groups of visitors during specific times, could exacerbate traffic flow issues. This may lead to delays and disturbances, negatively impacting local businesses, employees, and residents who rely on smooth access to the area.

The proposed development appears to diverge from the existing zoning and intended use of the site, which has historically been designated for commercial and office purposes. Such a change in use could disrupt the cohesion of the area and set a precedent for further developments that deviate from the established character and functionality of the locality. This raises concerns about the long-term implications for urban planning and the balance of commercial, industrial, and community spaces in the area. In conclusion, I urge the committee to carefully assess the suitability of this specific location for the proposed worship centre, taking into account the potential challenges related to traffic, parking, zoning, and overall community impact. I hope that alternative solutions can be explored to accommodate the needs of all parties involved while preserving the character and functionality of the area.

Thank you for your time and thoughtful consideration of this matter.
Sincerely,
Srijyothi M
