COMMENTS:

My wife is a resident at Warren Lodge Care Home, one of the reasons that we chose it was for the peace and tranquility the location offered.

This development and the noise generated by the occupants of two static and two touring caravans adjacent to the grounds and just a few metres from some of the residents rooms would seriously effect the lives of all in the care home with great detriment.

This is an inappropriate use for such a small plot of land and with this overdevelopment the site would soon become an eyesore from the current rural look of Finchampstead road.
