COMMENTS:

Thank you for considering the planning application for an Islamic community centre and mosque in Wokingham.

I write this letter in full support of the application being a resident of Wokingham and proud member of the community for over 19 years.

A centre of this nature will provide a necessary and important hub to serve the cultural, educational, charitable and social needs of the ever growing Muslim and Non-Muslim community.

Not only would the centre encourage unity, it would also bolster the local economy through new jobs and visitors to Wokingham. The positive impact and sense of belonging within our diverse and inclusive community far out-weigh any concerns about traffic or parking, which can be mitigated in partnership with the local council.

Please approve this application, the needs and benefits are evident and compelling. Together, let's make Wokingham a great place for all members of the community to call our home.

Sincerely,  
Abdul W. Issa
