COMMENTS:

I strongly object to this application.

The area is already under too much pressure. We do not have enough school places, GP appointments, hospital capacity, properly maintained roads or infrastructure to support the housing that already exists, let alone more development.

It is completely unacceptable to keep adding more homes while existing residents are left dealing with traffic, potholes, overstretched services and the loss of green spaces. Trees, fields and open areas are being steadily removed, and the character of the area is being lost.

At what point does this stop? The area is at risk of becoming overdeveloped, with no clear separation from Reading and fewer green spaces for local people and wildlife.

This proposal should be refused unless and until the necessary infrastructure is provided first.
