COMMENTS:

Enough is enough. I doubt my objection to this awful planning application will even be read and it's probably a waste of my time in submitting it. There isn't sufficient infrastructure to take more houses in this already overcrowded area. Where do the builders propose getting a sufficient water supply, sewage disposal etc? The roads can't take any more cars, (potentially 1,700 more) it's a total nightmare getting to and from Wokingham, Bracknell and the A329M. The Council have allowed the destruction of the area and it simply can't go on.
