COMMENTS:

I would like to register my objection to the planning application by Speedy Fuels on the following grounds.

As an angler who has invested considerable time and money on the lakes and river adjacent to the site, I am very concerned about the risk of pollution the site will represent.

I also feel that the huge increase in traffic with large vehicles entering and leaving the site continuously will be detrimental to air quality in the surrounding area, it will also raise the risk of accidents and potential fuel spills, which would represent an environmental disaster given the proximity to the river Loddon (which feeds into the Thames) and the many local lakes and streams.

The proposed working hours will also impact on local residents and the fact that the proposal to work late into the night will have a detrimental effect on local wildlife as there will be considerable light and noise pollution.

James Bates
