COMMENTS:

This is utter woke nonsense!

The area is already under pressure from over populations, traffic congestion and GP allocations.

Have 420 new homes built will add at least 1000 people to the area and the GP and surrounding areas can't cope.

The waiting list is already 2 months and that will increase if this goes ahead.

Not to mention damaging the natural landscape and wildlife preservation areas.

There are so many fox's and deer running around the streets due to over building. Genuinely feels like someone is taking a bribe here!!
