COMMENTS:

This cannot go ahead! Our area has already seen such a significant amount of new housing, and the existing infrastructure is struggling to keep up. The roads are increasingly congested, and further building will only make this worse.

Additionally, this project would remove much of the remaining green space, areas that are important for people's wellbeing and for local wildlife!

It's time to prioritise our existing residents, our environment, and the quality of life in our area before approving yet another new build
