COMMENTS:

Absolute objection. Lower Earley Way is already too busy, the amount of traffic and noise pollution would make it unbearable. Left turn in and left turn out on Barncroft and Paddick Estates would absolutely cause an environmental and traffic impact, as the we would now need to circle all the way around lower earley way, to Carshalton to get back to Lower Earley Way so as to enter the estate which is a doubling of time and distance.

The areas along lower earley way where the proposed exits from hall farm are due to come out are also prone to frequent flooding and this proposal will exasperate this issue.
