

Planning application 250111

We would like to add an important addition to our recent Comment/refusal Email to you on 10/2/2025 and that is the type of roof the above application is for “a Cold Roof or a Warm Roof” ...if the proposed extension as a Warm roof it will be even Higher.

We have a Conifer Hedge & could possible be damaged by digging as close by plus there is a fast growing tree planted very close to 46 Fairwater Drive Boundary Line when being taken out for new build.

I am adding some photos of the view we have from 44 Fairwater Drive to 46 where the proposed New Build would be for planning application 250111

Regards Mr & Mrs James
