COMMENTS:

I can't believe they are still trying to alter this pub! We don't need a hotel there!

It will cause extra traffic in the area and they are only proposing to change the access to the site, so that it gives them access to the field at the back of the site, where they want to build houses - the access does not need changing! And it also further reduces the amount of parking spaces for the restaurant, which is packed at the weekends - not as per the survey! The entrance onto the road is on a bend, and is hard to get out anyway, and we don't need any more traffic exiting the site!
