COMMENTS:

I would like to add an additional comment to my previous one, to clarify my objection to the dormer.

The orientation of the two properties and the two gardens (not parallel) means that the view from the dormer into my back garden will be direct, not oblique. The direct view from the dormer windows will be direct to the entertaining space in my back garden - an area that is currently not overlooked and fully private. This view also cannot be blocked with planting due to the height of the dormer.

Please ensure that you review the orientation of the two houses, and the layout of the two gardens, and you'll see that this is a direct, not oblique view.

I'm unable to upload images, however an image taken from my entertaining space to the proposed location of the dormer shows that it would be a direct view. I'm happy to share if someone can give me a way to do so.

Many thanks
