COMMENTS:

I would like to object to the application on the following grounds:  
The installation of the antenna does not comply with existing planning regulations with regards to its' height - it has a negative visual impact as it is very large and unsightly. In my opinion it is out of character for a well cared for avenue that is regularly looked after by the active residents association. Being positioned on the front of the house, it is very imposing, had it been installed around the back then I doubt anyone would notice it. Furthermore, I am concerned that if permission is granted, it will set a precedent for other residents to follow suit. In my opinion it has a negative impact on the local character of this well cared for street. Also, the planning notice has been positioned in a place where residents in homes opposite Number 11 cannot see it and therefore may fail to be aware that permission is being sought.
